## Uneigentliche und parameterabhängige Integrale

Michael Hinze

Magnifelin Jithpole

(1) 
$$\int_{-\infty}^{\infty} \frac{1}{x^{5}} dx = \begin{bmatrix} \frac{1}{5-1} & 1 & 5 & 5 \\ \frac{1}{5-1} & 1 & 5 & 5 \end{bmatrix}$$

With wisein  $\int_{-\infty}^{\infty} \frac{1}{x^{5}} dx = \lim_{N \to \infty} \int_{-\infty}^{N} \frac{1}{x^{5}} dx$ 
 $S \stackrel{!}{=} 1 \cdot \frac{1}{x^{5}} x^{5} = \int_{-\infty}^{\infty} (R^{5} - 1^{5})^{5}$ 

There  $\int_{-\infty}^{R} \frac{1}{x^{5}} dx = \lim_{N \to \infty} \frac{1}{x^{5}} (R^{5} - 1^{5}) = \int_{-\infty}^{\infty} \frac{1}{5-1} (R^{5} - 1^{5})^{5}$ 
 $\int_{-\infty}^{\infty} \frac{1}{x^{5}} dx = \lim_{N \to \infty} \frac{1}{x^{5}} dx = \int_{-\infty}^{\infty} \frac{1}{x^{5}}$ 

Valuar

Con "= ~" 1

1(X) = 1/5

 $\int \langle x \rangle = \frac{1}{|x|} = \sqrt{\frac{1}{2}} \qquad \int \langle x \rangle = \frac{1}{|x|}$
